WHY PREFOLDS?

Here at Bummis we love all types of cloth nappies – but we especially love our organic prefold nappies.

Here's why!

- 100% soft and natural, organic fabric against baby's skin
- Easy to clean and wash, and quick to dry!
- Very, very absorbent
- Less vulnerable to detergent and urine residue
- Less likely to retain odours
- Easy investment and big savings over the long-run
- No stuffing required – easy to fold and place in a nappy cover
- A great and customizable fit on any baby – simply by folding!
- Use with any type of nappy cover for even more customizing – change prints and colours, fit and fabric whenever you like
- Versatile! Use as a nappy, a burp pad, etc.and they make great rags when you are finished napping
- VERY durable – plan to use them for more than one baby (and did we mention what great rags they make later on?)
- Organic cotton IS hands-down the greenest and most sustainable choice in fabrics
- A tried and true option that is truly modern and convenient when used with flushable liners and pinless waterproof covers
